

Call Of The Wild

Eloy

Sudden vibes awaken deep inside
Words and sounds that echo in the night
It's like an animal,
it's aboriginal
So unemotional
it's taken over all your senses

Don't be afraid you must obey
the tug of the call of the wild
Deep down you know how to enjoy
feeling the call of the wild
Open the door of the cage
that's been holding you prisoner
and living a lie
and silence follows your cry

Pungent is the danger in the air
vibrant notions reach from everywhere
it seems so natural
So very physical
a little virginal
at last you're tearing down all fences

Don't be afraid you must obey
the tug of the call of the wild
Deep down you know how to enjoy
feeling the call of the wild

Now that you're sharing
the cradle of wisdom
and daring to reach for the skies
a silence follows your cry

It's like an animal,
it's aboriginal
So unemotional
it's taking over all your senses

Don't be afraid you must obey
the tug of the call of the wild
Deep down you know how to enjoy
feeling the call of the wild
don't hesitate no chance to escape
follow the call of the wild
Deep down you know how to enjoy
feeling the call of the wild
it's something that you can't deny
it's ruling all your senses
