

Future City

Eloy

Time's gone on
As you think about
Cities growing on
Until they're crashing you
Guess how you feel
Once smog is catching your breathing
Guess how you feel
Guess how you feel
Guess how you feel
Guess how you feel

The day is dark
When you wake up in the morning
The streets are bare
When death is going round and around

Time's gone on
As you think about
Cities growing on
Until they're crashing you
Guess how you feel
Once smog is catching your breathing
Guess how you feel
Guess how you feel
Guess how you feel
Guess how you feel
