

Hero!
Tearing down every wall
Bear your burden, conquer all
Striving to never die
Hero!
Climbing the peak of fame
'Til everybody calls your name
A myriad of vocals cry
Hero!
Your struggle knows no end
Your alone without a friend
Setting your goal too high
Hero!
Yours is victory
Going down in history
And like a star to shine
Do you realize
You've taken on that task that is far too great
The pressure grows
But it's much too late
And you recall
The easy loving life that you left behind
You can't control
The whirlpools in you mind
In your timeless world
Your pulse beats fast, takes on an endless race
You try to find a value for yourself
But the way is too long
Your toil is getting harder with every step
Confusion rules:
Your spirit's fighting back
Under the storm
And you return
You raced along
Going on
Means going far
Going far
