

# Paralysed Civilization

Eloy

Salvation out of sight  
A piercing gold inside  
Obscures the astral light  
Expanding alienation  
A fatal transformation  
Minds caught in space and time  
Await the final sign  
Deceptive visions shine  
A fading age is left behind  
Dawning - feel the heartbeat of creation  
Dawning - signals of predestination  
Warning - civilization in decay  
The children of the future led astray  
Expelled from paradise  
A wasted sacrifice  
Tears turning into ice  
Perverted evolution  
Senseless revolution  
Scared by uncertainty  
Blind to reality  
Lost in infinity  
Eerie moonlight shadows in the night  
Ancient trails in the sand  
Gone with the winds of eternity  
No beginning, no end  
All cycles end in infinity  
Let your intuition's fire burn  
Trust your guide inside  
Surpass the stairway of no return  
Towards the dawn of light  
Lone age of vanity  
Mindless insanity  
Hail to technology  
A spectral fascination  
Aimless navigation  
No motion in the air  
A silent scream somewhere  
Oscillations of despair  
Warning - stirring fears of termination  
Warning - paralysed civilization  
Dawning - step into a new millennium  
The neverending challenge of mankind  
It's the time - Beware the final sign, awake your senses  
It's the time - Approach the turn of time, don't fear the changes  
It's the time - Ride on the wings of light, escape the darkness  
It's the time - Heed to your voice inside, defeat the madness
