

Seeds Of Creation

Eloy

I've spent my life in darkness
Blind enslaved on the factory floor
And now a new sensation
Lost at sea I can see the shore

CHORUS:

I'm seeing trees growing
I'm hearing birds singing
I'm feeling rain falling
Spring is coming winter's on the run
Each drop of rain's a heart-beat
Bringing life to this barren ground
With nature's cycle turning
Seeds of creation all around

CHORUS:

I'm seeing trees growing
I'm hearing birds singing
I'm feeling rain falling
Spring is coming winter's on the run

BRIDGE:

Stand up stand up
Face a world full of light
Stand up stand up
It's the end of the night
I feel I feel
the rays of the sun
I feel I feel
winter's on the run
