

# A Dream Come True

Elton John

I can hear your heart  
Pounding in my ear  
Now I feel the sound  
And the time is near  
I feel the taste  
Of all the things you do  
Now the time has come  
I know you're a dream come true

You make me so complete  
With the things you do  
And the music's sweet  
You make me feel brand new  
I hear the sound  
Songs start coming through  
Somehow I know  
That you're a dream come true

It takes my breath  
When it sounds that way  
Seems like you  
Chase the clouds away  
And I feel so good  
Each and every day  
And life is good  
Each and every way

Now I feel the beat  
Of the dancing drums  
And now I know we're  
Gonna have some fun  
Now the time stands still  
And the blues are through  
And now I know  
What I'm gonna do

Now I feel the beat  
Of the dancing drums  
And now I know we're  
Gonna have some fun  
Now the time stands still  
And all the blues are through  
Now I know  
What I'm gonna do

It takes my breath  
When it sounds that way  
Seems like you  
Chase the clouds away  
And I feel so good  
Each and every day  
And life is good  
Each and every way
