

# Dreamboat

Elton John

Steamboat waiting by the waterside  
Sunlight shining on the mornin' tide  
Got my ticket in my hand  
Got some celebrating planned

Can't remember when I felt so fine  
I've been waiting such a long, long time  
Just to hear those engines hum  
Look out dreamboat, here I come

And I say, dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
All aboard, make it fast  
Thank the Lord, I'm coming home at last

If you love me like you did before  
Be there waiting on that distant shore  
When my steamboat comes inside  
And then I know, we'll be alright

And I say, dream on dreamboat, let your love light ride  
Stem on steamboat to the other side  
Turn the crank, change the gear  
Raise the flag and let's get out of here

Feels so good to know that soon I'll see  
You've been saving all your love for me  
Honey, if there's any doubt  
Just be sure I don't find out

And I say, dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
Cast the line, check the fuse  
Save some time, this ain't no pleasure cruise

Tell the Captain, not to take too long  
Keep that big wheel turning fast and strong  
Fires are burning down below  
Come on steamboat, don't be slow

And I'm sayin' that, dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
Wind the springs, set the course  
Pull some strings before I turn to force

Dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
Ring the bell, sound the horn  
Move like Hell, I'm heading back where I was born

And I say, dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
All aboard and make it fast  
Thank the Lord, I'm coming home at last

And I say, dream on dreamboat, let your love light ride  
Steam on steamboat to the other side

Turn the crank, change the gear  
Raise the flag and let's get out of here

Dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
Cast the line, check the fuse  
Save some time, this ain't no pleasure cruise

You're my dreamboat, yes you are

I say, dream on dreamboat, let my love light ride  
Steam on steamboat to the other side  
Ring the bell, sound the horn  
Move like Hell, I'm heading back where I was born, yeah

You're my dreamboat, yes you are

Dream on dreamboat, let my love light ride  
Steam on steamboat to the other side
