

# If It Wasn't For Bad

Elton John

I knew from the first night I met you  
Something just wasn't quite right  
Loving like an innocent stranger  
But something was just out of sight

How could I know that you had used me  
Fill out some plan of your own  
I could have known you'd abused me  
Leave me here hurt and alone

If it wasn't for you I'd be happy  
If it wasn't for lies you'd be true  
I know that you could be just like you should  
If it wasn't for bad you'd be good

I only sung what I wanted to sing  
You were a dream in my mind  
I never know how you never could be  
It didn't take long for me to find

I guess that it's mine for foresee  
Only what I wanted to see  
I couldn't know you would be  
A player just acting for me

If it wasn't for you I'd be happy  
If it wasn't for lies you'd be true  
I know you could be just like you should  
If it wasn't for bad you'd be good

I knew from the first night I met you  
Something just wasn't quite right  
Loving like an innocent stranger  
But something was just out of sight

If it wasn't for you I'd be happy  
If it wasn't for lies you'd be true  
I know you could be just like it should  
If it wasn't for bad you'd be good

If it wasn't for bad you'd be good
