

# Where Have All The Good Times Gone?

Elton John

See the changes here on every street  
As time goes marching to a different beat  
Moving on into the restless age  
As the kids today find their feet  
(Long enough to hold on)

Young enough to chase our dreams  
We were captured by romantic things  
Touched by love until it made us cry  
How our hearts could fly without wings

Oh won't somebody tell me  
Tell me where have all the good times gone  
Say that you remember  
Remember all those good old Four Tops songs  
Won't somebody tell me  
Where have all the good times gone

Stolen moments in the smoky room  
Monday mornings that would come too soon  
Crazy summers that would never end  
When the time was spent loving you  
(Yeah we had a good time)

Some things never seem to last  
Ain't it funny how we missed the past  
Love has changed but the clock still turns  
While the flame still burns for you

They've gone away  
Gone they've gone away  
Gone they've gone away  
They've gone away

It's hard enough to lose the game  
And sad to see it played again  
What makes you happy for a while  
Is gonna make you smile through the rain

Won't you please tell me where have all the good times gone
