

Last Night

Elusive

I'm on the desert highway
I'm the fallen one
Where I lost my faith
Sole survivor, future dawn
In the city of sin I'm out of love

Last night you made a promise of screams
Last night you gave me everything
Last night swimming in flowers and fire
Last night, last night you were here

On the desert highway
Beneath the radiant sun
Where I left all hope
Desire calls, tomorrowland
Went down, got out of hand

Last night you made a promise of screams
Last night you gave me everything
Last night swimming in flowers and fire
Last night, last night you were here
You were here
You were here

I'm on the desert highway
I'm the fallen one
Where I lost my faith
Sole survivor, future dawn
In the city of sin I'm out of love

Last night you made a promise of screams
Last night you gave me everything
Last night swimming in flowers and fire
Last night, last night

Last night you made a promise of screams
Last night you gave me everything
Last night swimming in flowers and fire
Last night, last night you were here
