

Passage

Elusive

stranded
and you have left the shores
and me
stranded
and there's no way out of here
so close my eyes

love lost again
passage escape

I wish you were here
close by my side
I feel so alone

I need you to say

a candle
to remember the day
no clouds in the sky
a candle
to remember the pain
the ones I have failed

love lose again
passage escape
I wish you were here
close by my side
I feel so alone
I need you
come save me
come save me child
cause I can't go on

I need you to say
