

## Passage

Elusive

stranded  
and you have left the shores  
and me  
stranded  
and there's no way out of here  
so close my eyes

love lost again  
passage escape

I wish you were here  
close by my side  
I feel so alone

I need you to say

a candle  
to remember the day  
no clouds in the sky  
a candle  
to remember the pain  
the ones I have failed

love lose again  
passage escape  
I wish you were here  
close by my side  
I feel so alone  
I need you  
come save me  
come save me child  
cause I can't go on

I need you to say
