stranded and you have left the shores and me stranded and there's no way out of here so close my eyes

love lost again passage escape

I wish you were here close by my side
I feel so alone

I need you to say

a candle to remember the day no clouds in the sky a candle to remember the pain the ones I have failed

love lose again
passage escape
I wish you were here
close by my side
I feel so alone
I need you
come save me
come save me child
cause I can't go on

I need you to say
