"SEASONSPEECH

Voice of Fall: Damnagoras
Summerplunge: Pauline Tacey
Spirit of Spring: Laura de Luca
Wintersoul: Jarpen

F: We're going to tell the tale of tales
Su: Are you sure? Or a little story of fancy
F: Seamen W: Dreamen F: Listen all!
W & Sp: The Fall begins his speech

F: So I bring rest upon the earth
Sp: With my seed, wealldcover all thy hearthstones
W: Soothing Su: Trimming W: Hum to sleep!
F & Su: The ornaments of woodnotes!

(Su: Night surrounds, we're roaming through the

shades of forgotten fairytales)
Sp: Can you hear the rhymes of winds?
F: The chant of leaves that fall?
W: No, no don't let me fall! F: Be quiet you!
F & Sp: The renaissance of the seals

I rest...

Bridge:
I rest upon the riverbank, worshipper of my thrills
The crackling of the dead leaves counts the steps

that lead me to the sea

Chorus:
Listen to this rigmarole, wake up and follow
Undertone, along with me, it's just a hint murmuring sigh
Hushing the plains for miles it comes from nowhere
I'm aware of my communion, I'll dance from nightfall an' evermore

Su: Look, winter's cloak is numbing all
F: Don't be a fool, you're doing it out of spite!
(Sp: You're unfair!)
W: Whiten, now all is white
Su: But soon you'll pass away

Twitch and twirl, the Wintersoul whirled past us in silence

like a passing whim so...
Woke, reborn, a seed to be swallowed by the soil caressed
in morning's light veils

Twitch and twirl, the Wintersoul has passed dimensions so
Cruel, reborn, no more forlorn...dimensions so cruel

Bridge:
I rest upon the riverbank, worshipper of my thrills

The crackling of the dead leaves counts the steps

that lead me to the sea

Chorus:

Listen to this rigmarole, wake up and follow

Undertone, along with me, it's just a hint murmuring sigh

Hushing the plains for miles it comes from nowhere

I'm aware of my communion, I'll dance from nightfall an' evermore

Solo: Aydan

A piece of a dream, the feel of being part within!

Dream up your own temptation

A piece of a dream, the feel of being part of it!

Build up your own temptation for me!

Solos: Jarpen, Aydan

Cherished and mantled by the open sea

The waves, ebbs and flows are now singing with me

And soundless the sky frays over the land

While a million stars, watch over all men (2x)

While a million stars, watch over all men through the lands

Chorus (2x)

Night surrounds, we're roaming through the shades

of forgotten fairytales

We have told the tale of tales

I will rest upon the earth

The Wintersoul will pass away
