

## Strange

Elvis Costello

How many wrinkles in a pickle  
How many hairs in a head  
How many waves in the ocean  
How many crumbs in bed  
But last but not least, but baby most of all  
Why do I mmmumble everytime you call

Because you're strange to me baby  
Oh, you're good to me mama  
Well, I admit you are strange  
But baby please don't change  
I know I belong with you

How many bubbles in soap  
How many chewings in gum  
How many rolls in a wheel  
Where did eyeballs come from  
But last but not least  
But baby most of all  
Why do I mmmumble everytime you call

Because you're strange to me baby  
Oh, you're good to me mama  
Well, I admit you are strange  
But baby please don't change  
I know I belong with you

How many blanks in a blanket  
How many cuts in a knife  
How strong is a bedbug  
And how deep is his bite  
But last but not least  
But baby most of all  
Why do I mmmumble everytime you call

Because you're strange to me baby  
Oh, you're good to me mama  
Well, I admit you are strange  
But baby please don't change  
I know I belong with you

Stange you got a big double head and one bloodshot eye  
Strange you got five double chins...  
Strange your knees look like the knees on a billy goat  
Strange you got two left legs...  
Strange there's something wrong with you I don't know what it is  
Strange I'm gonna leave you alone, gonna leave you like this
