

# Big Love Big Heartache

Elvis Presley

Oh yes, I know it's true  
The more you fall in love  
The more your heart can break in two  
Now that you've said goodbye  
For every tender kiss  
I've had the tears I cry  
I gave my heart and soul  
All the love I knew  
Oh how much it hurts me now  
To know that we are through

I'll always feel this way  
My arms will be so empty  
You'll return some day and say  
Your love, yes your big love  
Will be here to stay  
Till then it's

Your love yes your big love  
Will be here to stay
