Won't you show me how to kiss
Put your lips on mine
Do you do it just like this
Tell me I'm doing fine
We got a good thing going now take your time
Come on and make it last.
Love may be new to you but Oooh, I'm catchin' on fast

Give, give, gimme all you've got to give Love, love, love every moment you live Now you've taught me all you know Have I passed the test Show me all you've got to show Baby you're the best

But tell me I've learned quickly and I know each trick I'm sure love's gonna last Love maybe new to you but Oooh I'm catchin' on fast
