## **Five Sleepy Heads**

**Elvis Presley** 

There were five sleepyheads All tucked into their beds While I sang a lullaby One got dream dust in her eye

There were four sleepyheads Playing possum with me Mr. Sandman came by And then there were three

Moonbeams play peek-a-boo
Three away became two
And my song was almost done
When the land of Nod took one

Kissed the last one goodnight Then I heard not a peep There were five sleepyheads Now they're all fast asleep
