Give Me the Right

Elvis Presley

Give me the right
To hold you tonight
The tears that I've cried over you
Give me the right

You can't say no
When I need you so
I want you back in my arms
Give me the right

If you looked deep in your heart Like I looked into mine You'll find that nothing has changed Our love was there all the time

Why make me plead

For something you need

I want to bring back the thrill

Give me the right

Give me the right
