

# We Can Make The Morning

Elvis Presley

I just thought I heard a small voice crying  
Looked again and saw that it was me  
I feel like a little boy denying  
That he fears the night 'cause he can't see

Then a larger thought said stop your crying  
Don't be scared to search 'cause you may find  
Fate holds out a candle for your footsteps  
Time rolls back the shadows of your mind

It's a long, long lonely night  
You can make the morning if you try  
It's a long, long lonely night  
Oh, we can make the morning if we try  
Girl, we can make the morning you and I  
Together, together, together

Loneliness is darkness' first companion  
Spend the night alone and faith may bend  
Share it all and see how fear starts fading  
Chase away the shadows with a friend

Dawn's elusive light is just beginning  
Now the day can push away the night  
Dreams can make the sun feel much brighter  
Hope creates a foothold for the light

It's a long, long lonely night  
We can make the morning if we try  
It's a long, long lonely night  
We can make the morning if we try  
Girl, we can make the morning you and I,  
Oh together

It's a long, long lonely night  
We can make the morning if we try  
It's a long, long lonely night  
We can make the morning if we try  
It's a long, long lonely night  
We can make the morning if we try
