

# We'll Be Together

Elvis Presley

Oh I will never forget the first night we met  
Was love I was searching for  
My heart beat faster and faster, oh so much faster  
Faster than it did before

Juntos estaremos  
Siempre por siempre  
Junto a mi corazo'n  
Siempre estara's

We'll be together, and love forever  
Nothing can change our destiny

I knew the moment I kissed you, couldn't resist you  
Together we belong  
And then I knew in that moment just what this glow meant  
True love had come along

We'll be together, ever and ever, close to my heart  
You'll always be.  
We'll be together, and love forever  
Nothing can change our destiny
