

Wild In The Country

Elvis Presley

A rose grows wild in the country
A tree grows tall as the sky
The wind blows wild in the country
And part of the wild, wild country, am I
Wild, wild, like the deer and the dove
Wild and free is this land that I love

A dream grows wild in the country
A love grows tall as the sky
A heart beats wild in the country
And here with a dream in my heart
Part of the wild, wild country, am I
