

Fading Away

Elysia

The way you watch me
Makes my heart beat
The look you gave me
Made me breathe
The time together
Will last forever
You will never fade away
But you are gonna fade away

I am here to stabilize you
I am here to help you through
Your pain, Your misery
This everlasting train
You are unattainable to me
Your spirit is wild and free
But you are further away
You are fading away.
