Off Or Out

Elysian Fields

Can't get you off or out of my head Head for the sound in your belly You need a soul to find you out Make you windy We were so windy Winding, flying, backwards, forwards, sliding Red light crazy shining Haze garden Pure strain highway Can't get you off or out of my head Red silver sounds in your belly You need a dream to drown you out Make you windy We were so windy Winding, dying, inside, sucking, outside Spouting heavy moonlight Daze, shotqun Pure stain my way Can't get you off or out of my head
