

Awake

Elysion

I'm waiting for your call, keep waiting till you fall
As the night turns to day
I've waited here so long, it's almost time I'm gone
As my tears meet day

Dream the night away
You know I would have everything, if this all wasn't fake
Sleep our love away
I've never asked for anything
Sleep on, I'll be gone
Before you're awake

I'm waiting for your touch, keep waiting for too much
As my fears, all await
I've waited here so long, it's funny how you've thrown
All these years away

Dream the night away
You know I would have everything, if this all wasn't fake
Sleep our love away
I've never asked for anything
Sleep on, I'll be gone
Before you're awake

Dream the night away
You know I would have everything, if this all wasn't fake
Sleep our love away
I won't blame you for anything
Sleep on, I'll be gone
Before you're awake
