Bleeding

Elysion

This is my time you will forget it And leave it all behind This is my crime you will regret it For once you had to fight What I'll always will?

And I'm bleeding in a meaning Insecure is how I'm feeling I'm bleeding in a meaning

This is your time
I won't forget it
Won't leave it all behind
This is your crime
I won't regret it
For once I had to fight
What you'll never will?
