

Be Who You Are

Emanuel

Be who you are
You're a shining star
To be who you are
You're a shining star
They just don't really know
Some people, don't know how it goes
But you know what you know
I'm telling you, to do what you do
Be who you are
Cause you're a shining star
Be who you are
Cause you're a shining star
We all we have a light, within us
It's shining so bright, I'm telling you
Some of them know, I know
And some of them don't know where to go, oh but, but
Be who you are
Cause you're a shining star
To be who you are
You're a shining star
Oh yes, Just be yourself
Don't be nobody else
Love and live your life
And know it'll be alright, if you
Be who you are
Cause you're a shining star
And be who you are
You're a shining star
