

The New Violence

Emanuel

Live from the vacant lot. Everything that you dread.
We are the broken teeth amassing in your head.
This is the new violence. (We want more)
Cry if you're feeling faint. (Yeah yeah)
Well bring the cameras in it's time to carve you out.
Bang bang motherfucker, yeah.

So while you sleep at night.
We will crawl inside and eat you alive.
You host the parasite, we'll hold your televised suicide.

We're gonna find you tonight.
We've got the bright lights.
You'll be a star.
So get the bullets, alright.
And pull the trigger.

What is there left to lose? Why are you holding back?
Your fifteen minutes will be over in a flash.
The leeches are at your throat. (We want blood)
Lie if you're feeling faint. (Yeah yeah)
Well tie you up and down and drain your life away.
Bang bang motherfucker, yeah.

So while you sleep at night.
We will crawl inside and eat you alive.
You host the parasite, we'll hold your televised suicide.

We want blood.
We want blood.
Yeah!

So while you sleep at night.
We will crawl inside and eat you alive.
You host the parasite, we'll hold your televised suicide.

Who are you?
Who are,
Who are you?
You're no one.
No one,
Who are you?
