

Cloud 9

Emarosa

Open eyes maybe I'm a prophet kind
Only this is not the right time to raise my knees
Diving into what I need
If I could die with a little dignity
Maybe that would be the right spot to plant my feet
Fall into a parted sea

But now I have what I could not handle
Watching what I used to love unraveling god damn
But I will be there

Calling from cloud nine
If you can't hold your head up
Why should I
Watch you walk away from a good life
Calling from cloud nine
And no it does not matter what you do
Watch me walk away from you
I'm leaving alone

Love to walk to me to run away
I peel my face back under skin
You understand my feelings
Man I've got feelings
Man I'm not right when I'm stuck inside
We can imagine behind my soul
I feel a little overgrown

But now I have what I could not handle
Watching what I used to love unraveling god damn
But I will be there

Calling from cloud nine
If you can't hold your head up
Why should I
Watch you walk away from a good life
Calling from cloud nine
And no it does not matter what you do
Watch me walk away from you
I'm leaving alone
I'm leaving alone

I have my eyes inside
You tell me what I want to see
And I had my doubts about you
The fever dog inside of me
I need a better be at home better be alone
But I won't be there when you let me go
And I'm feeling someones feelings not done
I'm feeling worse than I did when I won

But now I have what I could not handle
Watching what I used to love unraveling god damn
But I will be there

Calling from cloud nine
If you can't hold your head up

Why should I
Watch you walk away from a good life
Calling from cloud nine
If you can't hold your head up
Why should I
Watch you walk away from a good life
Calling from cloud nine
And no it does not matter what you do
Watch me walk away from you
I'm leaving alone
I'm leaving alone
