

# Miracle

Emarosa

Little did I know my throat would close  
And my body night sky  
Little did I know the sound in your voice  
Could shake me to my pride  
(This has to hurt)

And lately I've been thinking how I need to talk to you

And babe, I feel our miracle fade in you  
I feel that miracle fade

I'm watching you die a little  
Watching you cry a lot  
Haven't we been deserving  
Maybe we're not  
Any other time my eyes are dry  
But I am an ocean  
(This has to hurt)

And lately I've been thinking how I need to talk to you

And babe, I feel our miracle fade in you  
I feel that miracle fade from you  
I feel our miracle fade in you  
I feel that miracle fade

Don't tell me its not my fault  
Inside there's that part of me  
Hold my hands, we feel so small  
Nothing ever happens until it happens to you

Babe, I feel our miracle fade in you  
I feel that miracle fade in you  
I feel our miracle fade in you  
I feel that miracle fade
