

# Forever Together

Emblem3

You'll be my Monday, my fresh start  
I'll be your Sunday, never be apart  
We got the whole week, in it together  
We got our whole life to go on forever

If you could see I could be the one to make you smile  
And all you'll need is love, we could take our time  
Spend every second with you  
Turn all your pressure into simply setting all your wildest dreams

Ay, I'll pave the way  
You just gotta follow me  
I know you'll be the one  
My paradise under the sun

You'll be my Monday, my fresh start  
I'll be your Sunday, never be apart  
We have the whole week, in it together  
We got our whole life to go on forever, ever, ever  
Go on forever, ever, ever  
In it together, gether, gether  
In it together  
Forever together

365 days in a year  
I'll be with you everywhere like the atmosphere  
We can follow the good weather  
Travel on the wind, birds of a feather  
7 days without laughter makes one week  
You're my happily ever after, smiling from cheek to cheek  
Every single day, 24/7  
Can't overstay, when you're with me I'm in heaven, ay

Ay, I'll pave the way  
You just gotta follow me  
I know you'll be the one  
My paradise under the sun

You'll be my Monday, my fresh start  
I'll be your Sunday, never be apart  
We have the whole week, in it together  
We got our whole life to go on forever, ever, ever  
Go on forever, ever, ever  
In it together, gether, gether  
In it together  
Forever together

Forever together, yeah

Forever together  
I'll be forever with you, no matter what we go through  
I'll be forever with you

Forever together
