

# My Calling

Emblem3

La Da Da Da  
La Da Da Da Dum Da  
La Da Da Da Mm Daa  
Ba Da Da Dum

I dream of black shades  
Driving with the top down  
Not a care in the world  
as the sun sets to the ground  
Two birds of a feather sharing in this world  
a change for the better, yeah

Uh  
True night, memory  
No enemies as I'm breathing in deeply  
Filling my lungs up  
with the cool night summer breeze, yeah

Rise above and grow some love  
as the world spins round and round  
Our love keeps time to this sound

This is my calling, I tell you  
This earth is falling down on you and  
Wisdom is power to controlling knowledge, yeah  
The future of the world is in the minds of kids

See, I ain't got no place to be going  
no places I gotta be, yeah  
My mind spell peace and it's inside of me  
So beat the beat of my heart up  
for you from the star to the floor  
At the floor, looking for beautiful

Down into the Twilight  
Down into the New Moon  
Down into the Eclipse  
Down into the gummies  
and I'm playing ukulele tunes to my baby, baby

As the world spins round and round  
Our love keeps time to this sound

This is my calling, I tell you  
This earth is falling down on you and  
Wisdom is power to controlling knowledge, yeah  
The future of the world is in the minds of kids  
(Minds of kids)

And I, I know-ow-ow that  
we don't have to worry, no  
Please don't worry, no  
And you're my friend  
We'll be okay in the end  
We'll be okay in the end

While the world spins round and round

Our love keeps time to this sound  
And time turns upside down  
Yeah

This is my calling, I tell you  
This earth is falling down on you and  
Wisdom is power to controlling knowledge, yeah  
The future of the world is in the minds of kids

It's in the minds of kids  
minds of kids  
It's in the minds of kids  
minds of kids  
It's in the minds of kids  
minds of kids  
It's in the minds of kids

La Da Da Da Mm Da  
La Da Da Da Mm Da Daa  
La Da Da Da Mm Daa  
Ba Da Da Dum  
Ba Da Da Dum
