

Nothing To Lose

Emblem3

You should roll with me,
whatcha got to lose?

I can make your teenage dream come true.
And all I wanna know is if you're feeling me or not.

I'm looking at the clock; it goes tick-tick-tock.
I wanna make you my lady, I aint tryna' hear no 'Call me Maybe'
I aint never seen, a girl so sweet.
I could be your surf board, you could be my beach.

Say, you spend all night lookin' down at your phone,
Girl, you need to get over it, you need to get over it.
Just one kiss then we both go with the flow,
I'ma help you get over it, over it.

Cause you don't gotta wait no longer, You don't gotta be so shy.
I just wanna pull you closer, I just wanna cross that line.
So baby come on, cause the night is almost over, so lets have the time of our lives like we got nothing to lose.

You know what I'm sayin, I hope you feel the same.
(Like we got nothing to lose)
You know what I'm sayin, I hope you feel the same, yeah.
(Like we got nothing to lose)

I can tell by the way you're rollin you're eyes you get a lot of attention,
probably fed up by guys.
I can try to convince you I'm different, but you look so good, it's hard to
put together a sentence. Get it On.
So if you could just imagine, what's goin' through my head.
And all the fun we havin.
If you give me a chance, I can promise you this; You wont be singing break up
songs, like that Taylor chick.

Say you spend all night lookin down at your phone, girl you need to get over
it.
You need to get over it.
Just one kiss, then we both go with the flow.
I'ma help you get over, ima help you get over it, yeah.

You don't gotta wait no longer, You don't gotta be so shy.
I just wanna pull you closer, I just wanna cross that line.
