

Reaching Out

Embodiment

Plain as day
The industry was starving
I'll light your flame
Turn away and leave

The prize to others
I'm on way
Set me up
Pave my way

I'm reaching out
Make a change the masses
Live in static
I'll ring your bell

For all the times
They gave it up for nothing
I'll have my say
Set me up

Pave my way
I'm reaching out
Hear this, hear this, hear this
I want it more than love

It's golden, golden
Where the road ends up
Hold it, hold it, hold it
Savor what you taste

Don't waste it, waste it, waste it
Dare to live
Give your all,
Build your dreams,

Kill your fears
Set me up
Pave my way
I'm reaching out
