Strength

Embodyment

Take me up from this world can't you see the hurting inside? How you all him, to defile my person Invite infelicity and this world it tries to weaken my faith Buy you are my strength in this world of ignorance Blinded by sin I question your motives Leaving myself to abhorrent ways This devil is beaten I decollate your servants Sword of the Spirit I will defy you Lord you are so faithful with me everyday Your heart forever graceful assurance of victory In my heart and should no dominion The path that Christ walked I choose to live Death is swallowed up in victory My faith in God I will not shudder I will not shudder I choose to walk the way that Christ did Lord you are so faithful with me everyday Your heart forever graceful assurance of victory
