

# Brothers and Sisters

Embrace

I've been trapped  
I'm all for giving  
But you've got me wrapped

I got my reasons  
But I won't explain  
I'll get my highs a better way

I watch you sinking  
As you're filling up  
Like your door's just been ripped off

In a storm you'd never start  
'Cause you always say the same thing

You say yeah

All you brothers and sisters come on  
You're not down because you're looking up  
And they ask you to jump and you jump  
'Cause you know that your time's gonna come

All you brothers and sisters come on  
You're not down because you're looking up  
And they ask you to jump and you jump  
'Cause you know that your time's gonna come

Brother, sister  
Brother, sister

I feel lapped  
You've only made it  
If you make it back

I got my feelings  
But I won't explain  
I'll get my highs a better way

I watch you sinking  
As you're filling up  
Like your door's just been ripped off

In a storm you'd never start  
'Cause you always say the same thing

You say yeah
