

Don't Turn Your Back on Love

Embrace

Don't let me turn my back on love
It's all I have
When the light you shine
Burns my eyes
Don't turn
No don't turn around
You'll see it's already gone
Man it's a sin
That you push too hard
Now I'm so far away

Please don't turn on love
Before it begins
There'll be time enough to change your mind
When your feelings change

No don't turn on love
Before it begins
There'll be time enough to change your mind
When you don't feel the same

Please don't turn on love
Before it begins
There'll be time enough to change your mind
When your feelings change

No don't turn on love
Before it begins
You've got time enough to change your mind
When you don't feel the same
