

## Free Ride

Embrace

I want a free ride  
Just to see what it feels like  
But even if it feels right  
I'm no fool  
In the hospital where stretchers  
Are arms and hands  
I needed someone who could understand  
Although these things they  
Are never planned  
I wanna feel  
Something for free

I want a clear view  
With nothing there that I can't see through  
'cos everybody wants to understand  
In the hospital where stretchers  
Are arms and hands  
I needed someone who could understand  
Although these things they  
Are never planned  
I wanna feel  
Something for free
