

I Know What's Going On

Embrace

Your secrets safe
cause you keep it inside
so nobody knows what you've done
but you can't hide you can't run

I know what's going on with you baby
I know what's going on

I shine a light on the fact that you lied
can see that your fooling no-one
cause everything you've done is wrong

I know what's going on with you baby
I know what's going on

I know what's going on with you baby
I know what's going on

Your secrets safe
cause you keep it inside
so nobody knows what you've done
but you can't run you can't hide

I know what's going on with you baby
I know what's going on
I know what's going on with you baby
I know what's going on
I know what's going on with you baby
I know what's going on
