

## Love Is Back

Embrace

I don't wanna make you come clean  
Lay out your life in front  
In front of me

Like the stars that shine through your fingers  
A simple word  
Is all that I need

And I  
Won't need to hurt no more

You were all you could have been  
It's bad you blamed yourself  
Worse I agreed

We got this far by lying like winners  
With simple words  
That had to be real

Now hush  
Don't you make a sound  
I'm a believer now

And I  
Don't wanna make the same mistakes  
I know everything you do comes back  
And I  
Know it's not over yet
