

# Milk and Honey

Embrace

I've had better days  
Days when the milk and the honey  
It poured into me, yeah

And I've had better times  
When I was up on my feet  
And not down on my knees, yeah

Now I want me and my  
To go where there's milk and there's honey  
And take what we need, yeah

Across that finish line  
We'll see that we're running for nothing with  
No one to beat, yeah

And every day I feel the same thing  
That you and I know we'll find our way again  
We are all on the same road if you understand  
Let's do what we can

And I've had better times  
Times when the milk and the honey  
It poured like a stream, yeah

And right before my eyes  
People were giving into need  
And not into greed, yeah

And every day I feel the same thing  
That you and I, we will find our way again  
We are all on the same road if you understand  
Let's do what we can

That's why I say a prayer for you now  
I'll say another prayer for you and me  
And though I know we'll never hear the answer  
I'll say another prayer for you and me

And so I'll say another prayer for you now  
I'll say another prayer for you and me  
And though I know we'll never hear the answer  
I'll say another prayer for you and me, and me

And every day I feel the same thing  
That you and I know we'll see those days again  
We are all on the same road if you understand  
Let's do what we can

And I've had better days  
Days when the milk and the honey  
It poured into me, yeah, yeah
