

Near Life

Embrace

You would be wrong for a tale so sad
To end upon a note just like that
Happy lost and still unaware
Throw your worries down with your cares
All I've got to show me I'm good
Is the fight I've got what I do some bad
The guilt connects me but it's never enough
To light the way when it's all I have

Near life

They say you work in some simple ways
You don't feel guilt then you'll never pay
Cos guilt won't take you if you look and see
Your life's a hurdle and it's out of reach
You tell a painter how they should paint
You start a feeling that you'll never change
I'm on a ship and I've found the sails
I've got my hammer, all I see is nails

Near life...
