

## Perfect Way

Embrace

What is there left for me  
What is there left to feel  
In this light you'd never get no sleep  
We're stuck like steel

Hey look you fool  
More than you gave  
You're with the only one who stays

Nowhere safe  
Fooling around can wait  
When they find you  
You'll have burned for days  
You're gonna pay

Hey look you fool  
Your foolish ways  
Still want it all but you can't take.

Ignore me  
Cos my lies won't make it right  
But on a show your doing fine  
With every lie I steal the time  
To find the perfect way  
To end it right

Don't you see  
There is no perfect way  
To end it right

Don't you see
