

# The End Is Near

Embrace

I can't believe it's all the same  
I can't believe we fill our lives with all these trials and errors on our way  
But I'll be there I'll be there

I shoulda never shown my hand  
But look outside and dream it's only when you look inside you'll understand  
And I'll be there I'll be there

Say the end is near whenever you draw near  
The end is near ohh ohhh  
Say the end is near whenever you draw near  
The end is near

The moon will flicker in the sky  
Like a film projector I have seen this scene a hundred million times  
But I'll be there I'll be there

Say the end is near whenever you draw near  
The end is near ooh ohhhh  
Say the end is near whenever you draw near  
The end is near  
Say the end is near whenever you draw near  
The end is near ohh ohhh  
Say the end is near whenever you draw near  
The end is near.  
Say the end is near  
Say the end is near
