

# Today

## Embrace

Today I locked my fears away,  
turn the key and throw it away  
and leave all the badness behind  
and start again

Today I get to make it new.  
Today I'm free,  
The day we're through

There's no more worries I can't face,  
I now there's nothing stacked so high,  
I can't see the light from behind,  
And clear the way,

Today I get to make it new,  
Today I'm free, free to choose,  
Today I get to start a new,  
Today I'm free,  
the day we're through
