

## Too Many Times

Embrace

How many times people  
How many times people  
Too many times  
Now that your god forsakes it  
How are you gonna make it into the light  
I know you wanna shake me  
But as you try to break me  
You bring me to life  
If you'd a spine you'd face it  
All of the might you've wasted  
Too many times

Now the damage is done  
I will darken your door  
No the truth it don't glitter and shine  
With you on my back  
I will have the last laugh  
Make you wish that you'd never told lies  
Wherever you are wherever you stay  
I will be there lying waiting all day all day

How many straws break it  
How many wrongs make it  
Make it a right  
Only the wise like you  
Could let the blind lead you  
Too many times

Now the damage is done  
I will darken your door  
No the truth it don't glitter and shine  
With you on my back  
I will have the last laugh  
Make you wish that you'd never told lies  
Wherever you are  
Whatever you say  
I will be there lying waiting all day all day
