

## Wonder

## Embrace

All the signs were there for me to see,  
If I cry out with fear I'll feel more afraid,  
So beat the sense back into me,  
Cos you are like forbidden fruit out of my reach  
And I forgot what I had sometimes

But if everyone has there shot and moves on  
and you can't get out the way  
well it's you wonder will save

You were mine and now you're mine to want  
And I knew if you'd cut the cord rush like balloons I'd fall  
It's criminal to pause  
as you basked in the seas applause I had it all  
And I forgot what I had, sometimes

But if everyone has there shot and moves on  
and you can't get out the way  
and its all for the best its all a lie  
That everyone has their day

Cos if everyone has their shot and moves on  
and you just get in the way  
well its you wonder will save

La, la, la,  
La, la, la,  
La, la, la...etc

Don't let them make you feel small with their hands like guns at your head,  
they'll claw but they'll never win if you let wonder in...

Cos if everyone has their shot and moves on  
and you can't get out the way  
and it's all for the best its all a lie  
and everyone has their day

Cos if everyone has their shot and moves on  
and you just get out the way  
well it's you wonder will save

Cos if everyone has there shot and moves on  
and you can't get out the way  
and it's all for the best it's all a lie  
and everyone has their day

But if everyone has their shot and moves on  
and you just get out the way  
well it's you wonder will save

Yeah it's you wonder will save  
Yeah it's you wonder will save.
