

You're Not Alone

Embrace

No you're not alone
cause everybody's out there on there own
but you are one of the seeds
tryin to be like no ones ever been
and everybody knows that that's the way it goes
and that's alright with me I've got time
you try so hard you get it wrong
you can't deny the feelings gone
its time you got the look you need

So keep holding on and time will come
you'll jump right up you'll find
your back on top of the world
sure in time you'll be heard
you said come on everybody now your meant for better
and say what you mean or you won't mean a thing
to me come on everybody knows you now
but soon your time will come yeah they'll know who you are

No you're not alone
cause everybody's out there on there own
but you are one of the seeds
tryin to be like no ones ever been
and everybody knows that that's the way it goes
and that's alright with me I've got time
you try so hard you get it wrong
you can't deny the feelings gone
its time you got the look you need

So keep holding on and time will come
you'll jump right up you'll find
your back on top of the world
sure in time you'll be heard
you said come on everybody now your meant for better
and say what you mean or you won't mean a thing
to me come on everybody knows you now
but soon your time will come yeah they'll know who you are

You're on top of the world
sure in time you'll be heard
you said come on everybody now your meant for better
and say what you mean or
you won't mean a thing
to me come on everybody ignores you now
but no its not the end of the world come in town
you'll be heard
you said come on everybody
we know your meant for better
