

# Lonely

Emeli Sandé

Well sometimes I get lonely  
And some days you don't know me  
And to try explain why I'll be gone by morning  
Is like expecting spring to understand the autumn

So come on, let's stop wasting all our energy  
Let's stop wasting summer on our knees  
And don't lie to me, I know you felt the changes  
And nothing's new, it's been this blue for ages  
So baby, I'm outta here  
Baby, I'm outta here

Sometimes I get lonely  
And I wish you'd just hold me  
And to try explain why some days hurt more than others  
Is like asking rain to sing above the thunder

So come on, let's stop wasting all our energy  
Let's stop wasting summer on our knees  
And don't lie to me, I know you felt the changes  
And nothing's new, it's been this blue for ages  
So baby, I'm outta here  
Baby, I'm outta here

And don't lie to me, I know you felt the changes  
And nothing's new, it's been this blue for ages  
Sometimes I get lonely  
Some days you don't know me
