

Alone Tonight

Emerson Drive

I know, we said we wouldn't go down this road
This bed is empty and it's so cold
I don't wanna be alone tonight

Stronger, I thought by now I could be stronger
And every day it's getting harder
I don't wanna be alone tonight

And a part of me knows better, I know we said we'd never
But maybe we're just living a lie
I could find a million reasons, to fight the way I'm feeling
But I... I don't wanna be alone tonight
Oh no

Weakness, you've always been my greatest weakness
It's like a secret that I must confess
I don't wanna be alone tonight

And a part of me knows better, I know we said we'd never
But maybe we're just living a lie
I could find a million reasons, to fight the way I'm feeling
But I... I don't wanna be alone tonight, oh no
No baby

And a part of me knows better, I know we said we'd never
But maybe we're just living a lie
I could find a million reasons, to fight the way I'm feeling
But I... I don't wanna be alone
And a part of me knows better, I know we said we'd never
But maybe we're just living a lie
I could find a million reasons, to fight the way I'm feeling
But I... I don't wanna be alone tonight
Oh no, I don't wanna be alone tonight
